

Risk Number	RM13974					Date of update			10 August 2016	
Risk Name	Failure to assure standards of operational competency for fires in the built environment.									
Risk Owner	Les Britzman					Date entered on risk register			13 October 2011	
Risk Description										
Standards of operational competency for fires in the built environment need to be maintained to avoid staff being exposed to avoidable risk of harm. Why is it important to manage this risk area? It is essential to manage the operational competency of Fire Officers operating in the built environment, and ensure that the facilities and training are in place that support the development of skills required for Fire Officers to operate as safely as possible.

Tasks to mitigate the risk										
Workforce Development programme delivered to schedule. Development and delivery of Breathing Apparatus training. Introduction of "Live Fire" training. Risk file information accurate and up to date - format for all key risk premises. Undertake incident command Breathing Apparatus training and associated monitoring. Implementation of "Lessons learnt" from local and national incidents integrated into review processes. Operational reviews and actions undertaken for all significant incidents. Quarterly monitoring of core skills levels. PDRPro software and training plans via Team Performance Meetings 1:1.										
Progress update										
Live Fire Unit Update. The contract for the unit has been awarded and first stage payment made. Estimated completion early summer, with new risk critical skills programmes being delivered following commission from early Autumn. Flag for removal once building is commissioned. The live fire unit as well as other Scottow associated building work is underway and is currently on target. All planning permissions are in place. Discussions are underway with a view to agreeing a way forward to enable all relevant planning conditions to be met.
