Breaking down barriers requires bravery of employer. I came into career via traineeship - no experience or MS degree required [#museumhour](#)

[#museumhour](#) I still feel SO lucky that I was given my break with a place on a salaried trainee scheme as an MA/extensive volunteering 1/2

[#MuseumHour](#) ...was out of reach. Just wish there were more of these opportunities out there. 2/2

Catching up on last nights [#museumhour](#). I completely value the [@ace\\_national](#) funded [#teachingmuseum](#) traineeship I did with [@NorfolkMuseums](#). Real on-the-job experience working in [#museums](#) as well as formal training sessions / learning. Brilliant alternative entry route

**#TeachingMuseum** trainee John had no experience with natural history collections but he took to it like a pink-footed goose to Breydon Water

Thank you for listening!
