C	Adult Social Care Committee Transformation	RM14079	Failure to meet the long term needs of older people	If the Council is unable to invest sufficiently to meet the increased demand for services arising from the increase in the population of older people in Norfolk it could result in worsening outcomes for service users, promote legal challenges and negatively impact on our reputation. With regard to the long term risk, bearing in mind the current demographic pressures and budgetary restraints, the Local Government Association modelling shows a projection suggesting local authorities may only have sufficient funding for Adult's and Children's care.	11/10/2012	5	5	25	4	5	20	<ul style="list-style-type: none">• Implement a new model for social care• Invest in appropriate prevention and reablement services• Integrate social care and health services to ensure maximum efficiency for delivery of health and social care• The Building a Better Future Programme will realign and develop residential and housing with care facilities• Ensure budget planning process enables sufficient investment in adult social care .• Adult Social Services is implementing a new more cost effective model for meeting peoples' needs based on Promoting Independence.	The Adult Social Care mitigating tasks are relatively short term measures compared to the long term risk, i.e. 2030, but long term measures are outside NCC's control, for example Central Government policy. The department is implementing Promoting Independence which will radically change Adult Social Services in Norfolk. The overall objective is: improving when and how people can get information and advice locally; helping people to meet their needs locally; helping people to be independent; a strengths based approach; and in turn reducing the number of social care assessments that Norfolk carries out and the amount of funded services provided. Strengths based training has been rolled out to all social care practitioners in Adult Social Services . An Interim Promoting Independence Strategy and Delivery Director has been appointed to help deliver the change.	2	4	8	31/03/2030	Amber	Catherine Underwood	Janice Dane	26/09/2016	
D	Transformation	RM13926	Failure to meet budget savings	If we do not meet our budget savings targets over the next three years it would lead to significant overspends in a number of areas. This would result in significant financial pressures across the Council and mean we do not achieve the expected improvements to our services.	30/04/2011	3	5	15	4	5	20	<ul style="list-style-type: none">• Efficiency and savings targets are being managed through the Promoting Independence Programme Board.• Work streams and project governance in place.• Monthly monitoring, locality team meetings and continued development of forecast to ensure timely focus on key budgets and any emerging issues• Norsecare Liaison Board to develop and monitor delivery of savings related to the Norsecare contract	<ul style="list-style-type: none">• Rationalisation of programme governance across the service and alignment to 2016-19 savings requirements• Promoting Independence programme of work underway including strength based assessments, pilot Community links, reablement recruitment.• Detailed work on target demand model and external support secured to challenge robustness; improve modelling, support development of additional plans and implementation has led to clarified demand requirements and financial implications.• Work with Impower has highlighted likely shortfall in savings delivery to planned targets. Programme is being restructured and revised plans presented.• Work continues with Norsecare to deliver savings.	3	5	15	31/03/2017	Amber	Susanne Baldwin	Susanne Baldwin	08/06/2016

ASC Committee members agreed to keep this on the risk register until government guidance was clearer. At this point in time no further information has been received from Government.	1	3	3	31/03/2020	Green	Janice Dane	Janice Dane	26/09/2016	
D	Safeguarding Locality and hospital teams	RM13931	A rise in acute hospital admissions / pressure on acute services or reduction in acute capacity.	A significant rise in acute hospital admissions / services would certainly increase pressure and demand on Adult Social Care. Potential adverse impacts include rise in Delayed Transfers of Care (DTOCs) pressure on purchase of care spend, assessnent staff capacity and NCC reputation.	30/06/2011 - revised 21/04/2016	3	4	12	4	4	16	<ul style="list-style-type: none">• Close daily monitoring of demand and flow.• Integration programme means we are transforming to flex to best advantage in this situation.• Close working across system to deliver new models and prevent rise in demand.• High level involvement in issues. D	Support & Development	RM13925	Lack of capacity in ICT systems	A lack of capacity in IT systems and services to support Community Services delivery, in addition to the poor network capacity out into the County, could lead to a breakdown in services to the public or an inability of staff to process forms and financial information in for example Care First. This could result in a loss of income, misdirected resources, poor performance against NI targets and negatively impact on our reputation.	30/04/2011	4	4	16	3	4	12	<ul style="list-style-type: none"> Children's Services, Adult Care, Finance and PPP planning requirements are prioritised by CareFirst Production Review Group - monitor and update as necessary at each CFPR meeting.
